

Connecting to Security Through Christ

Tonight, I really want us to consider one specific way that technology may be effecting us. We all have needs that can only be met by God. Dr. Kathy Koch, PhD. rights about some of the needs that all humans have hardwired into them in the book "Screens and Teens." This book highlights the problems that occur when we attempt to have our needs met in "counterfeit" ways. Problems happen when we run to anything other than God to fulfill us or our needs. I want you to consider if you are running to technology to meet your desire for _____. Do you run to technology instead of God to feel secure. It won't work! It won't satisfy, and it will cause problems in your life. We all must understand that...

True security can only be found in Jesus Christ.

Security- Guaranteed _____, whether natural or spiritual, from danger or loss.

Let's repeat our question: Are you running to technology (or anything else) for your security? for a sense of safety? "I don't feel safe unless _____."

1. Trust God with your _____ security.

A. Your eternal security is rooted in _____ . (Eph. 2:1-9).

B. Your forgiveness is rooted in _____ . (Romans 8:1)

C. You can be rooted in the _____ . (John 10:28-29)

Application Notes: _____

2. Trust God with your _____ security.

A. The Bible gives the _____ to every question about _____. (2 Peter 1:3-4)

B. God provides for every _____ in your _____. (Matt. 6:33; Psalm 23; Heb. 13:5-6)

Application Notes: _____

3. Trust God with your _____ security. (Romans 8:35-39)

It is easy to touch the like button on a screen. It is a lot more difficult to sacrifice of yourself for others. Take your security in the fact that Jesus gave Himself for you, and that nothing can separate you from His love. For those who are in Christ Jesus... there is no condemnation! Are you running to technology for your security rather than God?

Conclusion: True security can only be found in God. Technology is not wrong, but it does not always build me up. Technology is not wrong, but it is not always beneficial for me. Digital tools need to be put in there place. They can be used to strengthen your relationship with God. They are tools. They cannot be the source of your security. Trust God for your eternal security, your earthly security, and your emotional security.
